

Support Positive

a support group for new positives

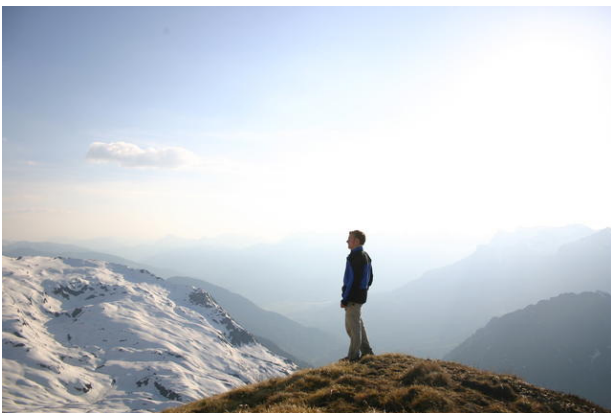

Dealing with a new HIV diagnosis can be a challenging and at times an overwhelming experience.

Issues around

- Disclosure, dating, and safer sex
- Managing medical care, understanding lab work and treatment options
- Dealing with family, work and friends

If you've been diagnosed with HIV in the past two years and are looking for support, call and join your peers.

We meet Tuesday evening at
The Center Long Beach.
