Come to this class to train your eyes to recognize AI. **Digital Coach, Carla** from Independence at Home/SCAN will talk about the advances in artificial intelligence (AI) technology, AI programs can now create text, images, and much more. At first sight, it may be hard to tell if what you see was created or altered by AI. In this session, we'll teach you tips and tools to help you determine if an image or piece of writing was generated by AI. We'll also discuss what tech companies like Google are doing to create systems to detect the use of AI.

### **Jan. 3: Movie Day**
